

**What is US Imaging Network?**

As of July 1, 2017, State of Delaware Aetna members have an advanced imaging benefit option called US Imaging Network.

US Imaging Network, a concierge scheduling program, offers access to 26 highly certified providers in the State of Delaware (over 2,200 in the US) for MRI and CT scans.

What Do I Do?

If your doctor determines you need an advanced image, your doctor should obtain pre-authorization.

Once your advanced image has been pre-authorized, the US Imaging Network concierge desk will call you directly and provide the following concierge services:

- Provide options on where to obtain the imaging service and that will result in the lowest out-of-pocket cost for you
- Arrange appointment at a convenient date, time and location
- Offer guidance about what to expect during the exam and how to prepare
- Follow-up with a written appointment confirmation, directions and important exam day reminders

We are pleased to offer the US Imaging Network program. To learn more about USIN please visit www.usimagingnetwork.com.
